

Coastal Watershed Invasive Plant Partnership
Meeting
July 2, 9am-11pm
US Forest Service Field Office, Durham

Agenda:

1. Pepperweed Presentation: Carrie Schuman, NHCP Environmental Technician, will give a presentation on identification and the threats posed to coastal habitats by perennial pepperweed, NH's most recent invader. Find out what you can do to help!
2. Odiorne Point State Park- Mapping and Pilot Project: Seacoast Science Center and Rockingham County Conservation District selected FB Environmental (Portland, ME) to GPS map invasive plants, develop an invasive plant management plan, and implement a 2.8 acre pilot project. Project partners are interested in getting input from CWIPP on methods and approach before the project starts.
3. Discovery Day at Northwood Meadows: Katie Arey (gbnerr) and Florence Peterson (usfs) will represent CWIPP at a local environmental event.
4. Updates: Factsheets, Projects, ANS management plan.
